# PIRATES

**ARMED TO THE TEETH & SHIVERING DOWN TO THE TIMBERS**

Celebrating the "Golden Age" of piracy around the turn of the eighteenth century, these figures accurately portray the real atmosphere of the period, faithfully depicting the hardmen who terrorised the high seas from the Caribbean & the Indian Ocean to the coast of Africa & the Eastern seaboard of America. Armed "to the teeth" the majority of our figures have (like our other ranges) a number of different head variants per code with different facial expressions & head gear etc. to add as much variety as possible to your motley crews. **A MUST FOR ANY PIRATE FAN !!**
